

February 1, 2021

Dear Valued Customer,

As a follow-up to our letter dated January 22, 2021 regarding INFUVITE, Baxter continues to experience supply constraints due to third-party manufacturing issues. Our third-party manufacturer alerted us to unexpected limitations on raw materials. This will impact availability of adult and pediatric single dose product beyond what we previously anticipated. As a result, INFUVITE allocation has been revised. We will continue to provide updates on supply as additional information becomes available from our third-party manufacturer.

Please see the table below for updated allocation limits.

Product Description	Product Code	National Drug Code	Group Allocation

\*Allocation amount includes consideration for switching INFUVITE bulk package to INFUVITE single dose package, calculated based on historical (June 2020 – November 2020) usage of INFUVITE bulk package. We encourage customers without direct purchasing history during that time to purchase through their wholesaler.

Due to the medical necessity of this product, we are cancelling backorders on INFUVITE Pediatric, Multiple Vitamins for infusion, single dose package (2A9008) to enable us to provide this critically needed product to a wider base of customers in order to provide patient care. You can place orders for the single dose packages per the allocation limits.

For your reference, ASPEN's 2020 Parenteral Nutrition Multivitamin Product Shortage Considerations has been developed to assist clinicians in addressing PN shortages for their patients. These parenteral multivitamin product shortage considerations were approved by the ASPEN Clinical Practice Committee and the Board of Directors and can be accessed at [www.nutritioncare.org](http://www.nutritioncare.org).

We recognize the importance of supply continuity in patient care and we are doing all that we can to work with our third-party supplier to resolve the shortage. We are exploring all other options to address this situation and are in communication with the FDA. We are committed to transparently and proactively communicating any changes in supply to you. In the meantime, to ensure you have the information you need readily available, please visit the [Supply Resources](https://ushospitalproducts.baxter.com/baxter-supply-resources) (<https://ushospitalproducts.baxter.com/baxter-supply-resources>) page on our website and download our Supply Availability Report to access the latest information on product supply. Please contact your Baxter representative or the Center for Service at 1-800-229-0001 with any questions.

Sincerely,
