Dear Valued Customer,

We are pleased to announce a number of improvements in the supply of INFUVITE, Amino Acids and Clinimix. As we work to increase supply, Baxter remains committed to resolving the shortages impacting you and your patients.

INFUVITE

A batch of INFUVITE Pediatric Bulk Package is now available to order and is being placed under your pediatric group allocation of 75%. There are no changes to Adult INFUVITE at this time. This change is highlighted in Table A below.

We encourage customers without direct purchasing history during that time to purchase through their wholesaler

AMINO ACIDS

As a result of accelerating production and delivery schedules, we are now beginning to see inventory levels that can support the incremental demand for Baxter's Amino Acids. Therefore, allocation limits on Travasol codes have been raised, and allocations for all other Amino Acid codes have been removed altogether, as indicated in Table B below.

Table B | Amino Acid Allocations
